### Notes

1. All daily settlement rates are excluding vat.
2. An additional £5 a day can be added for automatics (where this matches the customer's vehicle) unless the model listed is an automatic.
3. Vehicles with semi-shift gearboxes/ direct shift gearboxes where you can change gears either manually (eg by using paddles behind the steering wheel) or automatically, qualify for the £5 per day uplift for automatics.
4. An additional £5 a day can be added for estate vehicles (where this matches the customer's vehicle) unless the model listed is already an estate.
5. An additional £5 a day can be added for necessary extras such as tow bars and baby seats which reflect the customer's damaged vehicle type/fitments.
6. An additional £12 per day add-on to the agreed daily settlement rate for dual control vehicles (£7 per day add-on if insurance cover not provided).
7. For customers with a convertible, unless the model listed is already a convertible, convertibles are treated by placing them into the group higher than the hard top version e.g. BMW M3 is in SP9. The convertible equivalent would be in SP10.
8. Disabled driver vehicles - reasonable direct costs can be recovered plus an administration charge of £10 is acceptable in most instances. For any special adaptations then the CHO should discuss these with the insurer, preferably at the time the hire commences.
9. No charge can be included for additional drivers unless they are a non-standard driver. An additional insurance premium may only be charged where either the hirer/driver or additional driver is considered to be a non-standard risk and would therefore normally attract a loading of insurance premium by insurers. Examples of a non-standard risk driver would be under 25 years of age or over 70 years of age, lack of driving experience (held a full driving license for less than 12 months), occupation (e.g. Professional sportsperson, members of the Acting or Entertainment professions, Journalist, Publicans etc), convictions resulting in an unspent ban or greater than 7 points outstanding on their license.
10. The Citroen C4 Picasso 1.6 was incorrectly included in both S4 and M1. It is a M1 vehicle and has been deleted from S4.
